Profile

Hi! I am Marc Leerink, a passionate tech and music lover from the Netherlands, living in Berlin. I am a software engineering student at CODE University, currently looking for a working student position to complement my learning journey. My learning objectives are in the direction of Front-End Development, Web Development, Responsive Design and Practical Algorithms. I have a background in organizing music events and managing a music radio whilst producing and DJing on the side as well as advising clients in healthcare. My character would be best described as curious, communicative and creative. Furthermore, I possess strong analytical thinking skills and work solution-oriented with high attention to detail.

Employment History

Working Student, Copytrack, Berlin

September 2021 — Present

Validating and handling incoming copyright infringement claims from Copytrack's web crawler and image recognition software,

Radio manager/technician, Sameheads, Berlin

August 2019 — Present

Heads Radio is the radio station from Sameheads. I have set up the station from scratch. My main responsibilities include: Setting up the server for live streaming on different platforms, (online) promotion on different platforms, archiving shows on different platforms and curating the music program including artist handling.

Event Promoter, ELEVE, Berlin

September 2017 — Present

Co-owner of ELEVE, a platform in Berlin that focuses on giving emerging anti-pop artists a stage. We did events at Sameheads and Arkaoda. I am responsible for the bookings, artist handling and (online) promotion.

DJ/Producer, Leerinc, Berlin

January 2016 — Present

Producing and DJ'ing as Leerinc at music events in Berlin and Amsterdam. I have played at clubs such as Radion and Sameheads and did various radio shows at Redlight Radio and LYL and Future Intel to name a few. I have released a record on the label Mirror Zone.

Physiotherapist, Therapiezentrum Siegfriedshofe, Berlin

May 2018 — May 2020

Successfully diagnosing patients prior to designing and executing an effective treatment plan, motivating patients with various proven communication techniques including motivational interviewing, working together with other medical personnel to provide the best care possible as well as maintaining accurate and organized patient documentation in various programs including THEORG, Intramed and Office.

Customer Care Specialist/Design Specialist, Vistaprint, Berlin

October 2017 — April 2018

Handling customer inquiries with a high customer satisfaction rate, providing tailored guidance to customers on their design of various printed products as well as providing marketing advice specific to their business.

Education

Bachelor of Science: Software Engineering, CODE University, Berlin

July 2021 — August 2024

Current learning objectives in the direction of Front-End development, Web Development, Responsive Design and Practical Algorithms.

Bachelor of Science: Physiotherapy, Amsterdam University Of Applied Science, Amsterdam

September 2011 — June 2016

Bernard Lievegoed College for Liberal Arts, Driebergen-Zeist

September 2010 — July 2011
